

Paul Tweed Band Song List

Paul Tweed Band works to provide a great show, fun music, played well by experienced musicians. After decades of playing clubs, bars, parties, festivals, etc.. Paul has embarked on a new path to play his original music. The band still can cover a wide variety of songs as well, but our goal is to entertain with our new, fresh and fun songs. We still play about half of our sets from cover material if the venue would prefer that as well.
